SUPPORT BARS

ROUND SUPPORT BARS AND ACCESSORIES AVAILABLE

- Square tubing matches geometry of many popular CRL hinges
- Provides fixed panel support for enclosures not going to the ceiling
- No hole drilling required in glass

Our Square Support Bar complements many CRL square corner style hinges. The Bar stabilizes fixed panels of glass in enclosures that do not go to the ceiling. After ordering the Bar itself, choose from a number of various fittings to complete the desired application. The Fittings come with nylon-tipped set screws that secure the glass and prevent metal-to-metal contact. Finishes are available to match many popular decors. No holes or cut-outs are required in the glass.

SPECIFICATIONS:

Materials: 19mm Square Tubing, Solid Brass Fittings
Bar Length: 1.5m
Glass Thickness Range: 6 to 12mm

FINISHES

Softly, softly.

Introducing the CABO Soft Slide Sliding Shower Door System

We are delighted to offer our leading 'softbrake' braking system on a frameless sliding shower door. 'Softbrake' cushions the opening and closing of the door gently, quietly, and is completely concealed inside the header.

If it's not CABO, it's not double soft close.

Square clamp shown on sliding panel

Bottom floor guide included

- Featuring the new 'softbrake' braking system
- Hardware for one sliding door and one fixed panel
- Concealed overhead roller design
- Mounts wall-to-wall or wall-to-glass
- For use with 8, 10 or 12mm toughened glass (not included)
- Can accommodate doors weighing up to 80kg
- Available in five stock architectural finishes

The CABO Soft Slide Sliding Shower Door System is the first to offer the 'softbrake' braking system on a frameless sliding shower door, ensuring that you do not have to worry about the door slamming open or closed. 'Softbrake' cushions the opening and closing of the door gently, quietly, and is completely concealed inside the header. 'Softbrake' engages during the last 100mm of door travel, preventing the glass from impacting the frame or adjacent glass panel.

Each CABO 180 degree soft slide sliding door kit comes complete with a header, two top clamps, a bottom guide, a wall seal and a half-round threshold.

Bottom fixed glass attachments, handles, knobs and the 90 degree return hardware kit must be ordered separately. Our complete line of CABO soft slide sliding door kits and accessories can be seen at crlaurence.co.uk

Install glass balustrades with ease...

**Simple.
 Fast.
 Unique.**

Ready...
 The TAPER-LOC[®] Installation/Removal Tool compresses the Tapers together to lock the glass in place

Set...
 TAPER-LOC[®] Tapers insert into the Aluminium Base Shoe

Done.

TL5X10
 CRL TAPER-LOC[®] Taper Set for Monolithic Toughened Glass

The System includes an Installation/Removal Tool and CRL TAPER-LOC[®] Tapers for 12mm, 15mm, and 19mm toughened monolithic glass applications, and 13.52mm, 17.52mm, 21.52mm, and 25.52mm laminated toughened glass applications. Unique because they use a horizontal taper lock design, TAPER-LOC[®] Tapers are simply installed with CRL's exclusive TLK12 Installation/Removal Tool.

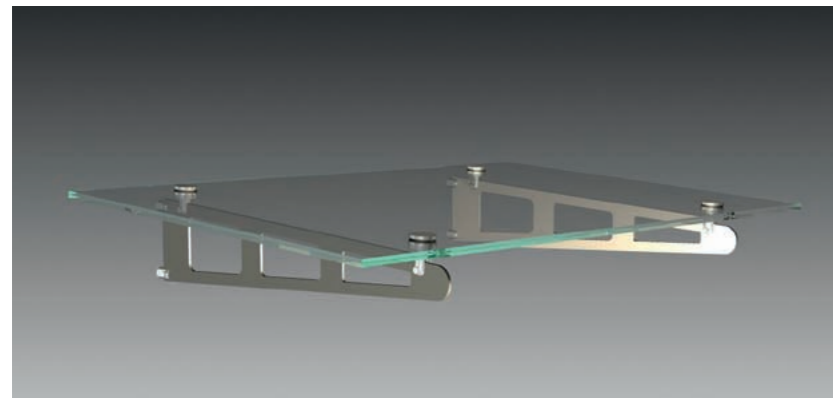

U.S. Patent Numbers 8,122,654 & 8,201,366 and Commonwealth of Australia Patent No. 2008207524

- Reduces Installation Time by 50%, with no need for wet cement
- For use with Monolithic and Laminated Toughened Glass
- Easy installation with one compact Installation/Removal Tool
- Designed by CRL for Commercial and Residential Applications

Structural Standoffs

CRL HEAVY-DUTY STANDOFFS

- Complete with mounting plate
- For use with 12 and 19mm monolithic toughened glass or 13.52 and 21.52mm laminated toughened glass
- Brushed or polished 316 grade stainless finishes
- Designed for steel, wood, and concrete substrates
- Full engineering data available at crlaurence.co.uk

These heavy-duty Rail Standoffs are designed for glass handrail or guardrail applications. Standoff Fittings have a 44mm standard projection from the installed attachment point. Custom lengths and diameters are also available.

THE NEXT GENERATION IN SURFACE PROTECTION
SEE PAGE 06

CRL GLASS RAIL STANDOFFS

- For use with 12 and 19mm monolithic toughened glass or 13.52 and 21.52mm laminated toughened glass
- Brushed or polished 316 grade stainless finishes
- Designed for steel, wood, and concrete substrates
- Structural Test Data Available
- Full engineering data available at crlaurence.co.uk

CRL's heavy-duty, point supported Glass Rail Standoff Fittings gives the installer more adjustment during installation for those tricky job site mounting conditions. The steel back plate can be fastened directly to steel, concrete, or wood substrates and shimmed as required with blocking.
