Fixed Glass Connection to Header

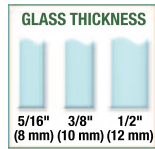

• Available Finishes

The Cabo Soft Slide Shower Door System is our first offering of the Softbrake Braking System on a frameless sliding shower door, ensuring that you do not have to worry about the door slamming open or closed. Softbrake cushions the opening and closing of the door gently, quietly, and is completely concealed inside the header. Softbrake engages during the last few inches of door travel, preventing the glass from impacting the frame or adjacent glass panel.

The Cabo Soft Slide Series has a choice of two clamp cover designs (rounded or square), and is available in five architectural finishes.

Each Kit comes complete with a Header, two Top Clamps with Covers, two Wall Mount Brackets, two Top Fixed Fasteners with Covers, and a Bottom Guide. A Wall Seal, Bottom Fixed Glass Attachments, Threshold, Handle, or Knob must be ordered separately. **NOTE:** Tempered glass is not included.

Optional Use Wall Mount Bracket (Included with 180 Degree Kits)

Optional 90 Degree Return Bracket and Wall Clamp (Sold Separately, See Below)
