Modern Design

CRL Glass Rooms and Pergolas have a modern progressive design, all of the individual components such as rafters and wall connectors have been designed to complement each other perfectly, creating a sophisticated and modern appearance.

Its timeless design integrates seamlessly with almost all types of architecture and with the range of optional extras you can create a space that is truly in keeping with your home.

“
Perfect for alfresco
entertaining whatever
the weather.”

“

The ultimate comfort and unlimited design flexibility makes a CRL Glass Room the ideal addition to your home.”

Intelligent Modular Design

The main structure of CRL Glass Rooms and CRL Louvred Pergolas is aluminium meaning very few supports are required to span large areas.

The intelligent design of the connectors enables a high degree of flexibility and the attractive design gives a sleek, lightweight look while making it extremely stable and giving the structure longevity.

The flexible design means many variations are possible, and with the optional extras of fixed glass panels, sliding doors, vertical blinds, integrated awnings and LEDs you can have a truly unique space to enjoy your garden throughout the changing seasons.

CRL Wall Supported Glass Rooms

CRL Wall Supported Glass Rooms are ideal for use as an extension to your home allowing you to look out at your beautiful outdoor space in all weather.

The wall supports enable the Glass Room to be fitted quickly and economically giving a rigid structure and protecting your outdoor area from the weather.

CRL Glass Rooms are completely bespoke and designed to suit your needs. Take a look at some of the possibilities to give you an idea of the Glass Room that would suit your space.

*Please note for CRL Glass Rooms with 90° corners the drainage down pipe will be slightly different to that shown in the images.

CRL Wall Supported Glass Rooms with two vertical supports

CRL Glass Rooms can span large areas using just two vertical supports with a projection of up to 6 m. A simple two post design gives a minimalistic look, with uninterrupted views across your outdoor area and beyond.

CRL Wall Supported Glass Rooms with multiple vertical supports

By using 3 or more vertical supports the CRL Glass Room can span even the largest of spaces and with a projection of up to 6 m your outdoor living area can truly be something special.

CRL Wall Supported Glass Rooms with a 90° Corner*

CRL Glass Rooms can negotiate those tricky corners, giving you a dual aspect across your outdoor area.

CRL Freestanding Glass Rooms

CRL Freestanding Glass Rooms are ideal for creating a luxurious garden retreat to while away the time and escape from the norm.

Able to span large areas CRL Freestanding Glass Rooms are ideal to cover hot tubs, pools and outdoor kitchens allowing them to be used even in inclement weather.

CRL Freestanding Glass Room

CRL Freestanding Glass Rooms can span an area of up to 6 m by 4.5 m with a maximum height of 3 m, giving a luxurious look to your outdoor space.

Modular CRL Freestanding Glass Room

By combining multiple Freestanding Glass Rooms large areas can be spanned. Ideal for commercial purposes.

CRL Louvred Pergolas

CRL Louvred Pergolas with a bioclimatic roof, are ideal for a stylish garden room. With the ability to span large areas CRL Louvred Pergolas can cover outdoor kitchens, hot tubs and pools giving you shelter from the weather be it sun or rain.

The remote controlled bioclimatic slats are easily adjustable to let light through and promote airflow while keeping out harsh glare or can be completely closed for protection from the rain.

CRL Freestanding Louvred Pergolas

CRL Pergolas can span areas of up to 6.5 m by 4.5 m, with a maximum height of 3 m, giving a modern, stylish feel to your garden area.

Modular CRL Freestanding Louvred Pergolas

Combine multiple Louvred Pergolas to cover larger spaces. Ideal for commercial purposes.

“

In the Spring and Summer months life tends to move outdoors. The CRL Glass Room can enable that without the worry of that swift dash back indoors should the weather not cooperate.”

Construction

The sleek lightweight attractive aluminium design is both aesthetically pleasing as well as robust. As standard, all rafters come with integrated channels for fitting lighting and discretely attaching motorised awnings.

- Available in white, grey, anthracite and a range of on trend RAL colours to suit many designs. Custom RAL colours are available on request

RAL 7016
Anthracite Grey

RAL 9007
Grey Aluminium

RAL 9016
White

Integrated Drainage

The inconspicuous drainage is cleverly integrated into the post, rainwater is channelled through the gutter into the drain pipe.

The front profile of the post can be easily removed using a clip system to allow easy access to the drain.

“
Make the most of
your garden whatever
the weather!”

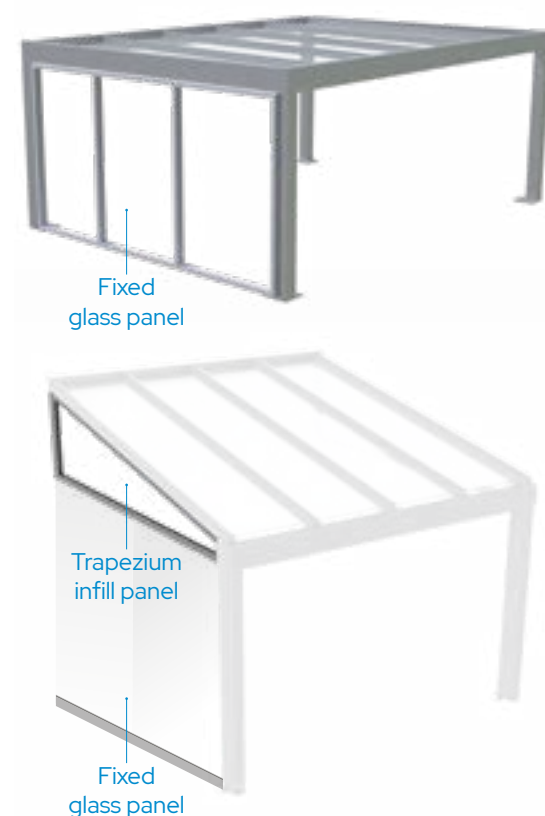

Fixed Glass Panels

For permanent wind and weather protection.

A fixed glass panel is ideal for those wanting permanent wind and weather protection whilst preserving unobstructed views across the outdoor space.

The fixed glass panels are framed with aluminium, easy to install and ideal for use with vertical blinds for when sun, shade or privacy is required.

For Wall Supported Glass Rooms the Fixed Glass Panels require a glass trapezium infill panel. The pitch and projection of the panel will be specifically tailored to suit the requirements of your outdoor area.

Sliding Glass Doors

Versatile, convenient, customisable and elegant.

This versatile all glass sliding door provides wind and weather protection for use with the terrace roofs.

Floor tracks can be flush mounted to provide a seamless transition to the outside. These smooth running and easy to operate transparent doors ensure you're protected from the worst of the elements while still being able to enjoy the view.

- Stainless steel running mechanism for smooth running
- Convenient lock with retraction centring
- Height adjustable panels
- Sophisticated rails with drainage

Sliding Glass Doors on Wall Mounted Glass Rooms require a glass trapezium infill panel (see illustration on page 18). The pitch and projection of the panel will be specifically tailored to suit the requirements of your outdoor area.

Integrated Electric Roof Blinds

The glazed roof draws huge amounts of natural light onto the terrace below. Integrated electric roof blinds can be added for comfort when the sun gets too low.

Relax in a pleasant shaded atmosphere with customised roof blinds. Featuring zip technology the light gap between the guide rail and the fabric is eliminated.

An extensive range of accessories such as lighting rails, heating elements and wireless motors with sensors for sun, rain and wind are available. Its contemporary design and wide range of colour options gives you total design control.

CRL Louvred Pergolas do not require integrated electric roof blinds as the louvres can be angled to protect against the sun and create shade.

Vertical Blinds

The perfect solution for low sun and gentle breeze.

Vertical blinds are ideal for use as either a privacy screen, for shade when the sun is low or as a barrier against gentle breeze.

The blinds can be retracted quickly and easily and can even be removed for the winter months. Available in a variety of fabrics and patterns to suit any taste or style.

- The fabric contains a UV blocker
- Dirt and water repellent

Lighting Options

Make the most of the outdoors well into the night, CRL offers a range of lighting that can be configured to complement your design.

The lighting rail can either be wall mounted, installed within the awning cassette or integrated into the aluminium supports of the roof.

LED spotlights can be integrated into the aluminium frame and are barely visible during the day.

At night these dimable LED lights provide an even illumination across the area.

Infrared Heating

Relax with your friends and family safe in the knowledge that when the temperature cools you can simply turn up the heat.

No need to cut short your evenings when the cool night air kicks in. The infrared heating element reaches temperature after just 30 seconds. The modern sleek design offers an efficient heating solution.

Outdoor Living Inspiration

Ideal for commercial purposes as two or more modules can be adjoined to cover a larger area.

Enjoy your view while being protected from the elements.

A modern minimalistic look enhances any outdoor area.

Perfect for alfresco entertaining whatever the weather.

The louvres can be angled up to 175 degrees each way so you can create shade where you need it.

Ideal for covering pools and hot tubs.

Integrated lighting creates an ambient atmosphere meaning the space can be used well into the night.

Enjoy your garden well into the night with integrated lighting.

Ideal for creating shade, so you can relax by your pool or hot tub.

A modular construction means two or more Pergolas can be adjoined to cover a larger area.

More from the CRL Outdoor Living Collection

Create a luxurious outdoor feel with surfaces from CRL Stone. Ceralsio and Inalco MDi surfaces from CRL Stone have a low water absorption rate of less than 0.2% making them ideal for areas where frost and ice is common. Ceralsio and Inalco MDi are also resistant to UV meaning that they won't fade in the sunlight.

Posiglaze

Posiglaze is a fully adjustable glass balustrade system that uses a unique clamping design to align the glass panels. A handrail is not required giving you an uninterrupted view through your outdoor area.

Outdoor flooring

Create a feeling of luxury in your outdoor area by choosing a surface from CRL Stone, with over 50 surfaces to choose from you're sure to find something you love.

Spiglite

Spiglite advanced is an adjustable glass balustrade system that uses individual spigots. It is quick and easy to install, raising the glass above the floor level which produces natural drainage.

Outdoor cladding

For a stunning effect on the outside of your house or perhaps along a garden wall, a long lasting surface from CRL Stone is the ideal choice, and with so many finishes available there is sure to be something to suit every style of architecture.

Outdoor kitchen

Great for entertaining, an outdoor kitchen is the ideal accompaniment to your CRL Glass Room or Pergola. Ceralsio and Inalco MDi surfaces from CRL Stone are very hardwearing and ideal for use outdoors. With several finishes to choose from you're sure to find the one to make the most of your outdoor space.
